Skills

- Languages
CPP, Python, Java Core
- Web Development
HTML, CSS, JavaScript,
React.js, Tailwind CSS,
ExpressJs, NodeJS
- Others
Git and Github, VS Code,
Vim, MS 360
- DataBase
Oracle, MongoDB, MySQL
- Interpersonal Skills
Observing quality
Problem Solving
Decision Making skill
Self Learning

Coursework

Data Structures & Algorithm
Database Management System
Operating System
Computer Network
Software Engineering
Web Technology
Neural Networks
Discrete Structure
System Design

Education

2021-2025

B.TECH. in Computer Science
ABES Engineering College
CGPA : 6.9 /10 till 5 Semester

2019-2021

INTERMEDIATE SCHOOL
New Era School
Percentage : 81.33%

2018-2019

HIGH SCHOOL
Gautam Budh Balak Inter College
Percentage : 89.6%

Experience

FTV Beauty Saloon (Full Stack Intern)

(AUG 2024 - PRESENT)

Beauty E-Commerce Website (MERN Stack)

- Successfully led a team of interns to develop pages such as Challenges and Contest pages
- Integrated components such as a search bar and a "Why Us" section, components and others
- Adhered to industry best practices in developing a responsive and scalable E-Commerce Beauty website using the MERN stack for FTV Beauty Salon.

Data Mining Internship

(MAY 2024 - PRESENT)

- Executed data mining and analysis projects, utilizing data cleaning and visualization.
- Gained expertise in Python, SQL, and machine learning for extracting insights from complex datasets.

Certifications/Achievements

- Google IT Automation using Python [Google](#)
- Problem Solving (Intermediate) [HackerRank](#)
- ReactJs [Infosys SpringBoard](#)
- Introduction to Git and GitHub [Google](#)
- Introduction to Networks [Cisco Netcad](#)
- Cloud Foundations [AWS Academy](#)
- Front End Development- HTML [Great Learning](#)
- Python Data Structures and Algorithms [Infosys](#)
- Open Source Contributor and winner in Events like VSOC and SSOC
- 150+ problem solved on leetcode and 5 star coder on HackerRank

Projects

Shopify-Clone

React, JavaScript, HTML/CSS | [LINK](#)

- Empowers entrepreneurs by offering a platform to create and manage online stores effortlessly, mirroring the features of Shopify.
- Streamlines the e-commerce experience, from intuitive product listings and inventory management to seamless payment processing and customer interactions.
- Promotes growth and innovation by providing customizable themes, marketing tools, and analytics to help businesses thrive in the competitive digital marketplace.

Sahaay - Farmers One Stop Solution

Web3JS | [LINK](#)

- Leverages modern technology to deliver real-time updates on weather forecasts, government schemes, seed varieties, and fertilizer options.
- Facilitates innovation in farming by offering insights into technological advancements like solar panels, enabling sustainable and efficient farming methods.
- Promotes growth and innovation by providing customizable themes, marketing tools, and analytics to help businesses thrive in the competitive digital marketplace.

ZimClothing

HTML/CSS, Express.js | [LINK](#)

- Utilizes modern technologies like Tailwind CSS for sleek, responsive styling and a Node.js backend with Express to efficiently serve mock clothing data.
- Prioritizes user-friendly design, ensuring an intuitive interface that simplifies the search process for all users, regardless of technical proficiency.
- Simplifies online shopping, making it easy for users to find exactly what they're looking for with minimal effort.
- Optimizes performance by using efficient algorithms and lightweight code, resulting in a fast and responsive application that enhances user satisfaction.
